

DailyDAC's PREMIUM PUBLIC NOTICE SERVICE

DailyDAC's *Premium Public Notice Service* helps market asset sales on behalf of fiduciaries (e.g., Chapter 11 debtors-in-possession and committees, trustees, receivers, assignees), secured lenders selling collateral under UCC Article 9, and auctioneers to a very large and self-selected group of potential bidders and their advisors. The Service also assists with noticing other events, like claims bar dates, in bankruptcy cases.

Where do DailyDAC's Premium Public Notice Service ads appear?

Premium Public Notice Service ads appear in **DailyDAC's Distressed Asset Central Weekly**, on DailyDAC.com, and on CommercialBankruptcyInvestor.com.

DailyDAC's Distressed Asset Central Weekly is emailed each week to more than 10,000 subscribers — including thousands of restructuring and private equity professionals — who are interested in buying distressed assets and investing in insolvent companies.

DailyDAC.com and CommercialBankruptcyInvestor.com are websites that receive thousands of weekly visitors seeking information on such sales and about bankruptcy, restructuring, and insolvency topics.

How much does it COST?

Pricing is straightforward and far less expensive than newspaper advertising: An ad for a single auction costs **\$800** for one week. Each additional week is only **\$250**.

What do customers THINK?

While a newspaper ad may satisfy our minimum legal obligation, I know that the incremental cost of also advertising using DailyDAC's premium public notice service is money well spent because of its national and international reach among interested buyers."

What's wrong with JUST NEWSPAPERS?

General circulation newspapers reach a broad but unfocused audience; most readers just don't care about public auctions of commercial assets. Moreover, most newspapers' geographic reach is limited, their ads are expensive, and there is significant lead time from the time you place the ad to the time it runs.

Placing a DailyDAC Premium Public Notice Ad is a smart supplement to other marketing activities and may just be the difference between a court finding that notice was — or was not — conducted in a commercially reasonable manner. To read more about the risks of relying solely on newspaper ads to satisfy notice requirements, read [this](#).

What do customers THINK?

Traditional newspaper advertising for public auctions has several disadvantages in reaching the buyer marketplace which is nationwide: they are costly, they take too much lead time, and a small percentage of people actually read their local newspaper with a smaller subset of them caring about these ads. I have found DailyDAC's premium public notice service addresses all of these problems. Its service is inexpensive, ads typically can go on-line the same day, and its opt-in newsletter goes out to tens of thousands of people who subscribe with a clear interest in such sales."
